LORDIN® – SKIN CARE FOR PROFESSIONALS

A matched skin care concept keeps the skin healthy

Skin diseases are the most frequent occupational diseases but they are often underestimated.
The three pillars of occupational skin care are distinguished by color and they indicate the chronology of application on a workday:

1 Skin protection before work
2 Skin cleansing during work
3 Skin care after work

To facilitate the selection of suitable products, LORDIN® products are additionally marked with pictograms. Skin protection products are either marked with symbols for highly-adhesive or oily working materials or with symbols for aqueous and oily, or rather varying working materials.
For skin cleansers, bars indicate the product's cleansing power whereas drops depict the intensity of skin care products.
The costs which have to be spent for skin care per employee and year are often lower than the costs per working hour. Nevertheless, a skin care concept should have both aims: health maintenance and a good cost-benefit ratio. However, skin compatibility has to be taken into account. The growing demand for hygiene results in suitable dosing techniques which ensure better hygiene.
The LORDIN® program "Skin Care for Professionals" supports you to protect, to clean and to care successfully for your skin at work.

PREVENTIVE SKIN PROTECTION

Skin protection products should be applied **before and during work** as well as after breaks. They are able to protect the skin from stress caused by working materials and they also facilitate skin cleansing.

The right application of suitable skin protection products makes the subsequent cleansing process much faster and easier.

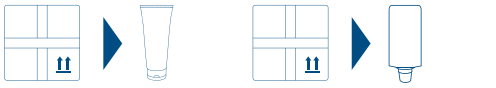
LORDIN® DIRT&OIL PROTECT

highly-adhesive and oily working materials

Dirt-Repellent Skin Protection Cream to Facilitate Skin Cleansing
in case of contact with water-insoluble working materials or highly-adhesive, water-insoluble dirt such as graphite, soot, metal dust, oil, grease, paint, varnish, resin, adhesives, tar and bitumen, etc.

- prevents dirt adhesion
- facilitates skin cleansing
- contains dirt-binding emulsifiers
- increases hand's grip
- contains moisturizing glycerin, nurturing allantoin and witch hazel (hamamelis)
- silicone-free
- perfumed

100 ml tube
1 L collapsible bottle



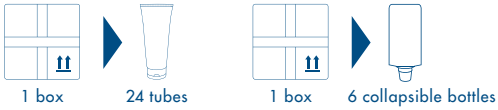
LORDIN® MULTI PROTECT

varying working materials

Skin Protection Cream Against Varying Working Materials
when handling aqueous or oily working materials. Can be applied under protective gloves.

- broad protection spectrum against varying working materials, e.g. when alternately using water-miscible and water-immiscible cooling lubricants
- with dualistic effect
- contains moisturizing glycerin
- panthenol supports the skin's natural regeneration process
- silicone-free
- perfumed

100 ml tube
1 L collapsible bottle



SKIN CLEANSING DEPENDENT ON DIRT LEVEL

Skin cleansers have to guarantee thorough cleansing without exposing occupationally stressed skin additionally. Therefore, one should never use an unnecessarily strong product. While choosing the right cleanser, the kind of dirt has to be considered in order to ensure an ideal effect and highest-possible skin protection. Products containing scrubbing agents facilitate skin cleansing in case of heavy dirt. Cleansers with solvent might be necessary for the removal of highly-adhesive and extreme dirt, for instance.

LORDIN® POWER PASTE

Highly Concentrated Hand Cleansing Paste with Natural Scrubbing Agent

for heavy dirt caused by water-insoluble working materials based on grease and pigments, such as oil, grease, graphite and metal dust.

- very good cleansing power
- contains natural scrubbing agent
- biodegradable
- soap-free
- adapted to the pH value of human skin
- solvent-free
- perfumed

500 ml can
10 L bucket

1 box | 27 cans | bucket

heavy dirt

LORDIN® EXTRA PASTE

Mild Hand Cleansing Paste with Natural Scrubbing Agent

for medium and heavy dirt caused by water-insoluble working materials based on grease and pigments, such as oil, grease, graphite and metal dust.

- good cleansing power
- contains natural scrubbing agent
- biodegradable
- soap-free
- adapted to the pH value of human skin
- solvent-free
- perfumed

500 ml can
10 L bucket
30 L hobbock

1 box | 27 cans | bucket | hobbock

medium and heavy dirt

LORDIN® SPECIAL POWER

Special Hand Cleanser

for stubborn and highly-adhesive dirt, such as printing colors, varnish, tar, resins, adhesives, etc., which cannot be removed by applying solvent-free skin cleansers.

- contains cleansing booster made of natural rape seed oil
- contains plastic scrubbing agent
- contains environmentally-friendly surfactants
- soap-free
- perfumed

extreme dirt

250 ml tube
2 L collapsible bottle
3 L can
10 L canister

LORDIN® LIQUID POWER

Liquid Hand Cleansing Paste with Natural Scrubbing Agent

for heavy dirt caused by water-insoluble working materials based on grease and pigments, such as oil, grease, soot, graphite, and metal dust.

- very strong cleansing power
- contains natural scrubbing agent
- adapted to the pH value of human skin
- soap-free
- solvent-free
- perfumed

heavy dirt

250 ml tube
2 L collapsible bottle
3 L can
10 L canister

Mild Cleansing Lotion

for light and medium dirt, also suitable as shower gel for hair and body.

- blue cleansing lotion
- mild cleansing power
- biodegradable surfactants
- adapted to the pH value of human skin
- soap-free
- perfumed

light and medium dirt

250 ml tube
1 L collapsible bottle
2 L collapsible bottle
1 L hard bottle
10 L canister

REGENERATING SKIN CARE

Basically, skin care products are applied **after work** on clean and dry skin. They remoisturize the skin in order to keep it healthy. Care creams support the skin's regeneration process and help to restore the skin's natural protective barrier. Moreover, skin care prevents rough and chapped skin.

LORDIN® INTENSIVE CARE

Skin Care Cream for Hands and Face
to remoisturize stressed and dry skin after work.

- is well absorbed
- supports the skin's regeneration process
- proven formulation with a balanced amount of lipids and moisture
- W/O emulsion
- silicone-free
- slightly perfumed

100 ml tube
1 L collapsible bottle

1 box → 24 tubes
1 box → 6 collapsible bottles

stressed and dry skin

LORDIN® BASIC CARE

Skin Care Emulsion for Hands and the Entire Body
to remoisturize normal skin after work.

- is quickly absorbed
- supports the skin's regeneration process
- contains moisturizing allantoin
- O/W emulsion
- panthenol has an anti-inflammatory effect and supports the healing of wounds
- silicone-free
- slightly perfumed

100 ml tube
1 L collapsible bottle
1 L hard bottle

1 box → 24 tubes
1 box → 6 collapsible bottles
1 box → 10 hard bottles

normal skin

VARIOMAT ECO
