

FERM CRM1045

Details:

The FERM CRM1045 compressor completes every job quickly and easily: performing tacker work to inflate a tyre. With additional pneumatic tools the powerful 1100W machine is suitable for a wide range of tasks. The CRM1045 features a 24 liter tank that can produce up to 8 bar of working pressure. The strong 1 cylinder pump of the FERM compressor is oil-lubricated and powered by a silent induction motor. Thanks to the wheels and the grip you can easily move the compressor. You can read both the tank pressure and the exhaust pressure exactly on the 2 manometers. With the universal $\frac{1}{4}$ inch coupling you can connect different air tools quick and easy.

Features:

- Inflate tyres and soccer balls with a tyre inflator (ATM1041)
- Painting surfaces easily with the paint spray gun (ATM1039)
- Remove dust and sawdust with a air blow gun (ATM1050)
- Finish furniture, cabinets or panels with a pneumatic tacker (ATM1042)

Technical Specification

Gross weight 22.9000
Max. pressure 8 bar
Tank volume 24L
Air displacement 155L/min
Horse power 1.5 HP
Power input 1.100W
No load speed 2.850/min
Mains voltage 230V~
Frequency 50Hz
Includes Oil
